## ADVANTAGES AND OPPORTUNITIES OF THE SUMMER SCHOOL

The Prairie View Summer School provides opportunity for study to meet the needs of undergraduate and graduate degree candidates at Prairie View or elsewhere, of teachers, and other persons for whom summer study will contribute toward educational goals.

Recent high school graduates who desire to anticipate their entrance into college in the Fall Semester by taking college level courses are furnished a variety of BASIC COURSES FROM WHICH TO MAKE a selection. In addition to the advantage gained in terms of credit earned, such students are likely to experience a more favorable environment in which to make the transition from high school to college than during a regular academic college term.

## LIVING INFORMATION

### COLLEGE RESIDENCE HALLS

Reservations for housing in the Sollege residence halls are now being accepted. Application will be considered in the order in which they are received. If you are a married couple, please indicate by letter that you desire accommodations together.

### HOUSING IN THE PRAIRIE VIEW AREA

A limited amount of housing for families is available in the Prairie View community and in near by towns. However, the student must make his own arrangements with the household for such accommodations. Students who can apply in person are generally more successful in locating housing facilities in the community than those who must rely on correspondence.

### DINING HALL ROOMS AND CAFETERIAS

An estimate of the cost of living at Prairie View in the summer can be made by consulting the figures given on the Fees and Expenses page of this Bulletin. In private homes rentals vary according to location.

## ACADEMIC INFORMATION

### UNDERGRADUATE PROGRAM

The College offers undergraduate degrees, the Bachelor of Arts and the Bachelor of Science.

The Bachelor of Arts with teaching certificates may be taken in one of the following fields: Business Administration, Economics, English, History, Music, Political Science, and Sociology. The Bachelor of Science degree will be conferred upon all candidates who satisfy the general requirements for graduation and satisfactorily complete their work in Agriculture, Biology, Chemistry, Elementary Education, Engineering, Home Economics, Industrial Education, Mathematics, Physical Education, and Physics.

**Admission:** All applicants for admission to the College must be high school graduates of good moral character and must pass, satisfactorily, a physical examination administered by their family physician.

All credit for admission must be filed and classified in the Registrar's Office before the student may attain academic status of any kind. Transcripts should be on file in the Registrar's Office before the registration date of the Summer Session. At the request of the applicant, a blank for this purpose will be sent by the Registrar for the principal of the high school from which the applicant was graduated.

**Accredited:** Prairie View Agricultural and Mechanical College is accredited by the Southern Association of Colleges and Schools, the American Association of Colleges for Teacher Education, the Association of Texas Colleges, and the Texas Education Agency.

The teacher education program of the College has been approved by the Texas Education Agency, and the National Council for Accreditation of Teacher Education. Majors in Agriculture, Biology, Business Education, Chemistry, Economics, English, History, Home Economics, Industrial Education, Mathematics, Music, Physical Education, Physics, Social Sciences, and Sociology may qualify for a permanent high school certificate by completing the prescribed course of study in those fields.

### GRADUATE PROGRAM

The College offers the Master of Arts degree, the Master of Education degree, and the Master of Science degree.

Students who are registering for the first time for a graduate degree should file with the Graduate School an application for admission together with a certified transcript of all college credits. Admission blanks may be obtained from the Graduate School Office.

**Time Requirement:** For students who attend only the Summer Session, the Master's degree may be earned in 30 weeks of attendance in post and Summer Sessions.

**Course Load and Credit:** In each six-week term of the Summer Session the course load for credit applicable to a degree is **six semester hours**. Courses with numbers 500 or above carry graduate credit.

### NOTICE TO CANDIDATES FOR THE MASTER'S DEGREE

Theses and Essays, submitted in partial fulfillment of the requirements for the Master's degree, are due in the Office of the Chairman of the Committee on Graduate Study not later than three weeks prior to the date on which the degree is to be conferred. Candidates for graduation in August, 1969 must submit their theses or essays not later than August 1, 1969.

Each Candidate for a Master's Degree is required to take a comprehensive final examination after the other requirements for the degree have been completed. The examination may be given near the end of the candidate's last term of residence while he is still taking courses for the degree, provided he is making satisfactory progress in those courses.

**Time Limit for Graduate Credit:** No graduate credit earned more than six years before the completion of the requirements for the Master's degree will be counted toward the degree, except as indicated below. Graduate credit earned prior to September 1, 1963 is no longer valid as credit toward the Master's degree. However, as much as six semester hours of resident credit earned within the period September 1, 1962 to August 31, 1963 may be re-validated by examination, if the student will complete the requirements for the degree by September 1, 1969. Workshop credit, or credit earned with a grade of "C," cannot be revalidated.

## THE W. R. BANKS LIBRARY

The W. R. Banks Library is in a modern building, centrally located on the campus. The library has many comfortable, well-lighted study areas. These consist of the book stacks, reference room, reserves reading room, special collection room, periodicals reading room, curriculum laboratory, and the reading lounge.

The library is ideal for doing study and research, being air-conditioned in its major study area. The library contains some 105,875 books, 990 periodical subscriptions, plus many governmental documents, pamphlets, reference sources, curriculum guides and hand books, and various types of audio-visual aids.

The library will be open the following hours during the Summer Session: Monday through Friday, 8:00 A.M. to 10:00 P.M.; Saturday, 8:00 A.M. to 5:00 P.M.; and Sunday from 2:00 P.M. to 5:00 P.M. Any exceptions to these hours will be posted in the library. There will be no services available on the top floor of the library, and in the basement of the library, Friday evening, and on Saturday and Sunday afternoons.

## PREPARATION OF SCHOOL LIBRARIANS

To make it possible for in-service teachers and others to become fully qualified as school librarians as soon as possible and thus meet a growing demand for school librarians, the College has scheduled courses in library science for the two summer terms.

## SUMMER SCHOOL ACTIVITIES

**Recreation:** Summer School study and summer school recreation go hand in hand. The recreation committee has provided a well-balanced program of cultural attractions and motion pictures to be held in the Auditorium-Gymnasium. A full recreation program will be available to the summer school students and their children.

**Sports:** A highlight to summer sports program is the competition between the various intramural teams. They compete for mythical titles in softball, tennis, and volleyball.

**Public Lectures:** Open lectures of general interest and educational value are given throughout the term affording an opportunity to hear persons of attainment in various fields of endeavor. These lectures are open to all members of the Summer School without additional fees.

**Religious Services:** Religious services are conducted in the Auditorium-Gymnasium throughout the summer session by clergymen of various religious denominations. These services will be held at 11:00 A.M. each Sunday, June 8 to August 17 inclusive.

## VETERANS' ELIGIBILITY

Veterans previously enrolled at another place of training under Public Law 346 must present (in addition to this letter of certification, a Form 1953, Supplemental Certificate of Eligibility).

If there is any doubt as to status as a veteran student, inquiry should be made to the nearest Veterans Administration office or to the Dean of Men, Prairie View A. and M. College.

If eligibility matters are determined before registration, both the registration and allotments will be expedited.

## MOTOR VEHICLE REGISTRATION

All students of Prairie View A. and M. College are required by Law to register ownership of any motor vehicle which is brought to and used on the College Campus. The registration fee is \$5.00 per term.

## CLASS ATTENDANCE

Students are expected to attend all class meetings of each course for which they have registered unless excused in writing by the instructor, Department Head or Dean of the School in which they are enrolled. Failure to attend classes regularly will result in the grade of "F" being recorded for the course.

The instructor's daily record shall constitute the official account of the student's attendance. The administration holds the instructor responsible for an accurate, complete, clearly comprehensible record of each student's attendance.

Absence shall be classified as excused and unexcused. The student is held responsible for the scholastic work he has missed whether the absence is excused or unexcused.

Absences to be excused include those covered by:

1. Illness
2. Death of a close relative
3. Unusual situations recognized by the Administration.

Whenever a student incurs any number of excused and/or unexcused absences which adversely affect his classwork, or whenever a student accumulates the number of unexcused absences in a course, consecutive or otherwise, equal to the number of semester hours credit to the course, the student shall be dropped from class by the instructor who will immediately turn in a written notice of this action to his Department Head or Dean. The student may not be re-admitted to class until officially reinstated. If the student is absent again, after being reinstated, without being officially excused, he shall be reported by the instructor to the Dean of Instruction, after receiving the endorsement of the Dean of the School. The Dean of Instruction will notify the student's parents, withdraw the student permanently from the course, or take other appropriate action.

## OWNERSHIP OF TEXTBOOKS

Textbooks must be owned independently and separately by students except in the case of relative supported by the same individual.

In all courses which require textbooks, students will be required to prove ownership of the required text or present evidence of having ordered the necessary book not later than the 12th class day of the semester or the 6th day of the summer session. Students failing to present evidence above stated will be dismissed from class until such a time as they prove ownership of the textbook required for a given course.

## DECLARATION OF MAJOR AND MINOR

The College provides faculty advisers who assist students in the selection of their courses at all levels. Each student must declare his major and minor during his sophomore year when his department head or any instructor delegated by him assumes advisory responsibility.

## CHANGE OF MAJOR

Before a student can transfer from one school, or division, to another, he must secure the consent of the Deans of both schools, and must make up the required work in the school which he is entering.

Application for change of curriculum shall be passed upon by the Dean of the schools concerned. An unmarried student under twenty-one years of age must have the written consent of his parent or guardian.

Forms to be used in requesting change of curriculum may be obtained from the office of the Registrar.

## EXPLANATION OF COURSE NUMBERS

The first digit reading from the left indicates the level on which a course is offered, as freshman—1, sophomore—2, junior—3, senior—4, graduate—5 and above. The second digit indicates the semester; odd numbers indicate the first semester even numbers indicate second semester, except zero, which indicates either semester. The third digit specifies the hours credit a course carries.

Example: CHEMISTRY 114. This means that the course is on the freshman level, and is offered the first semester and carries four semester hours credit.

## HISTORY AND GOVERNMENT REQUIREMENTS FOR A BACCALAUREATE DEGREE

In order to meet the legal requirements for a baccalaureate degree, all students must have credit for six semester hours of American history, in addition to Political Science 113—American National Government, and program of the ROTC may satisfy the government requirement by earning three semester hours of credit in Political Science 103—State and National Government, and three semester hours of credit in Advanced Military Science.

## ESSAY REQUIREMENT

Every candidate for the bachelor's degree must write a report on some practical topic or project in his field of concentration. Further information pertaining to this requirement for graduation may be secured from your Dean or Department Head.

## ATTENDANCE AT COMMENCEMENT

No degree shall be conferred except publicly on Commencement Day. Every candidate must attend in person the Commencement at which the degree is to be conferred.

## REFUND OF LABORATORY FEES AND STUDENTS' SERVICE FEE

- (1) Any student withdrawing during the first week of class during any fall or spring semester shall be entitled to a 100% refund.
- (2) Any student withdrawing during the first two days of class work of a summer term shall be entitled to a 100% refund.
- (3) Any student withdrawing after the days specified (1) and (2) above, shall not be entitled to a refund.

### GENERAL PROPERTY DEPOSIT:

The refund policy in regard to the General Property Deposit balance does not permit this balance to be paid the student until ten days after the Registrar's Office certifies to the Business Office that the student has withdrawn permanently from the institution. The student must make application for the refund in the Registrar's Office before such a notification is sent to the Fiscal Office.

Any student withdrawing officially (a) during the first week of class work in a summer term, one-half; (b) after the first week of class work in a summer term, nothing. No refund will be made until ten days have elapsed from the time the fees were paid.

## **SCHEDULE OF CLASSES**

### **IMPORTANT INSTRUCTIONS FOR BOTH TERMS**

#### **Announcements:**

This preliminary announcement provides general information on the College's Summer Session for 1969. Some changes may have to be made before the classes begin. Therefore, the College reserves the right to withdraw, add, or alter courses and to change instructors as it deems necessary.

The scholastic standards of the academic year are maintained. All courses are taught by the regular faculty supplemented by visiting professors from other educational institutions.

The Summer Session consists of two six-week terms, beginning June 2 and ending August 23.

NOTE.—Under no conditions will final examinations be given early. Therefore, students who will be unable to complete either six-week term should not enroll for credit in the regular classes of the term.

#### **Registration:**

Registration is completed when all fees have been paid, all registration forms executed and turned in to the Registrar's Office, and class cards for each course in which the students registered have been turned in to the teachers of these courses.

#### **Change of Program:**

Those students who desire to change their programs may secure the cards for this purpose from the Registrar's Office. Approval for change of program must be secured from the student's adviser, head of department, or dean. When the change of program is approved, the student is given an add or drop slip to give to the respective teachers to add or delete his name from the class roster. In case the dean or department head divides or changes a class, it will be necessary to obtain change of program cards. A list of names of the students changed from one class to another should be given to the Registrar showing the following information: Course and numbers, section, name of teacher, time and place of meeting for class transferred from and transferred to.

#### **Candidates for Graduation:**

PROSPECTIVE CANDIDATES FOR GRADUATION DURING THE SUMMER SESSION MUST MAKE FORMAL APPLICATION TO THE REGISTRAR FOR THE DEGREE SOUGHT AT THE TIME OF REGISTRATION.

Blanks for this purpose will be furnished by the Registrar upon request. Every student must spend at least one full academic year (35 weeks) prior to graduation in actual residence on the Prairie View Agricultural and Mechanical College campus.

SPECIAL NOTE.—Those students who enrolled in undergraduate courses prior to September 1, 1963 and have completed all requirements for their degree must qualify for graduation according to the plan and standards as set forth in the catalogue for 1963-64.

#### **Extra Loads:**

A full load is six semester hours. No one will be permitted to earn more than six (6) semester hours credit either term.
